# Currency & Coin Bags

The Shields Tamper Activated Technology (STAT) adhesive closure provides the single solution to tamper evidence. STAT provides a visible warning message at both extreme heat and freezing, without having to rely on unstable, heat-indicating inks or moisture sensitive patterns. A consistent, single warning against all types of tampering improves security throughout the chain of custody as well as processing. Highly tamper evident, yet highly resistant to false positives or 'pre-voiding' during handling.

## PERFORMANCE FEATURES

- Provides visible warning of tampering at any temperature extreme
- Resistant to pre-VOIDing from routine handling and stress
- Consistent message and performance from both in-line closure and Dual Seal STAT closures
- Single pouch and twin pocket design 3/4" to 1" tall bar codes and numbers for high visibility under camera and FED approved
- Stock sizes range from 8x10 to 19x33, clear and white/opaque
- Multiple sizes of coin bags in single and dual handle designs
- Just-in-time delivery with dual coast distribution
